**Bachelor of Science/  
Elementary 1-6**

University of Missouri

## Certification

- **Elementary 1-6**

## PROFILE

I am currently a third grade teacher in the Hazelwood School District at Barrington Elementary. During the last three years I have planned out lessons with teammates, attended Professional Developments and PLC's, learned how to work with the Deaf and Hard and Hearing students in my room, and so much more. This year I have modified and differentiated lessons when needed and used data to understand how I can set student goals. A part of this year that I feel I have improved on is my classroom approach and flexibility. By building relationships and trying different strategies, I believe that I made a classroom environment where students supported each other and increased their effort throughout the year.

## EXPERIENCE

### Third Grade Teacher/Second Grade Teacher

Hazelwood School District, Barrington Elementary | 2019 - Present

- Built classroom community using morning meetings to allow students to share thoughts and ideas.
- Attended Professional Developments throughout the year consisting of becoming trauma informed and aware of student mental health.
- Cooperated with grade level teammates to have consistent plans and learn new approaches in teaching through PLC and team meetings.
- Applied classroom management techniques based on student needs and abilities such as conscious discipline and PBIS strategies.
- Presented curriculum in multiple ways such as gradual release, small groups, or partner work.
- Applied the Investigations math program and MySci science program in my classroom.
- Incorporated technology skills to assess students during virtual learning.

### Third Grade Teacher

Hazelwood School District, Brown Elementary | 2018 - 2019

- Built relationships with each student and encouraged a growth mindset.
- Attended PLC's and Professional Developments throughout the year involving setting/reflecting data goals and de-escalation strategies.
- Cooperated with grade level teammates to have consistent plans and learn new approaches in teaching.
- Applied classroom management techniques based on student needs and abilities.
- Learned about the needs of DHH (Deaf or Hard of Hearing) students including paraprofessionals and interpreters.
- Presented curriculum in multiple ways such as gradual release, small groups, or partner work.
- Applied the Investigations math program and MySci science program in my classroom.

## Professional Development

---

### HAZELWOOD-2020

Trauma Informed  
Mental Health Awareness  
Technology Usage  
PBIS During Virtual Learning
